

What coverage is available?

Working or retired, when you choose to enroll in Medicare, you have options. Many people choose to mix and match coverage to suit their individual needs.

Part A

Original Medicare | Part A

Part A covers inpatient care, including care received while in a hospital or skilled nursing facility and, in limited circumstances, care received at home.

Part B

Original Medicare | Part B

Part B covers doctor's visits plus many outpatient services and supplies like preventive care, ambulance services, and durable medical equipment.

Part C

Medicare Advantage | Part C

Part C Medicare Advantage plans are all-in-one health plans that combine Parts A, B and most often D, with additional benefits like dental, hearing and vision.

If you choose a Medicare Advantage plan, prescription drug coverage is usually included, so you don't need a separate Part D plan.

Medicare Coverage Options

Part D

Prescription Drug Plan | Part D

Part D prescription drug plans (PDPs) cover the costs for prescription medications. Part D is usually included in a Part C plan, or is paired with Medicare Supplement policy.

Med Sup

Medicare Supplement Plans

Medicare Supplement plans pay various out-of-pocket health care expenses not covered by Original Medicare, but do not cover most prescription drug costs.
